Ocean Sun Catcher

Make a fun and simple craft to create some ocean themed scenes for a sunny window.

You'll need:

- Coffee filters or tissue paper
- Watercolor paints & brush or washable markers & spray bottle with water
- Dark blue or black paper
- Scissors
- Glue
- Pencil

What to do:

1. Paint the coffee filter using the watercolors and set it out to dry. If you don't have watercolor paint, you can use washable markers to color the filter and then spray with water to blend the colors.
2. Draw an outline of an ocean animal on dark blue or black paper then cut it out.
3. Glue the animal silhouette to the coffee filter and hang the finished craft in a sunny window!
