Paper Airplane Craft

Fly just like a falcon and create your own paper airplane. Did you know that birds and airplanes fly using the same strategies to produce lift? Some birds can fly for thousands of miles. How far can you throw your paper airplane?

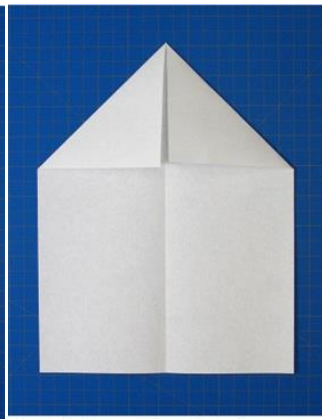

Materials needed:

- Paper

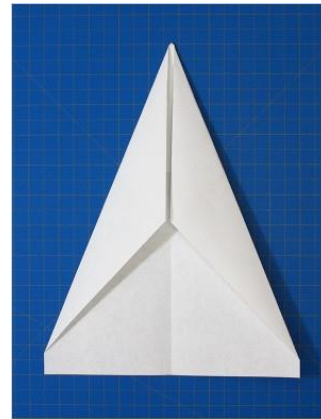

What to do:

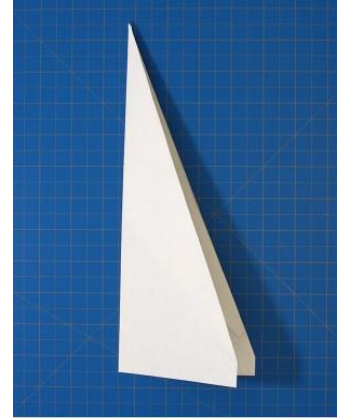

1. Fold the paper in half.

2. Unfold and then fold the corners into the center line.

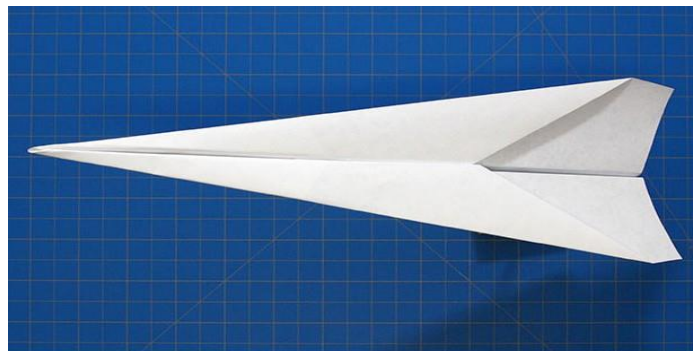

3. Fold the top edges to the center.

4. Fold the plane in half.

5. Fold the wings down to meet the bottom edge of the planes body.
